

# Skyline Design

GLASSBOARDS

Sustainably made in our Chicago factory

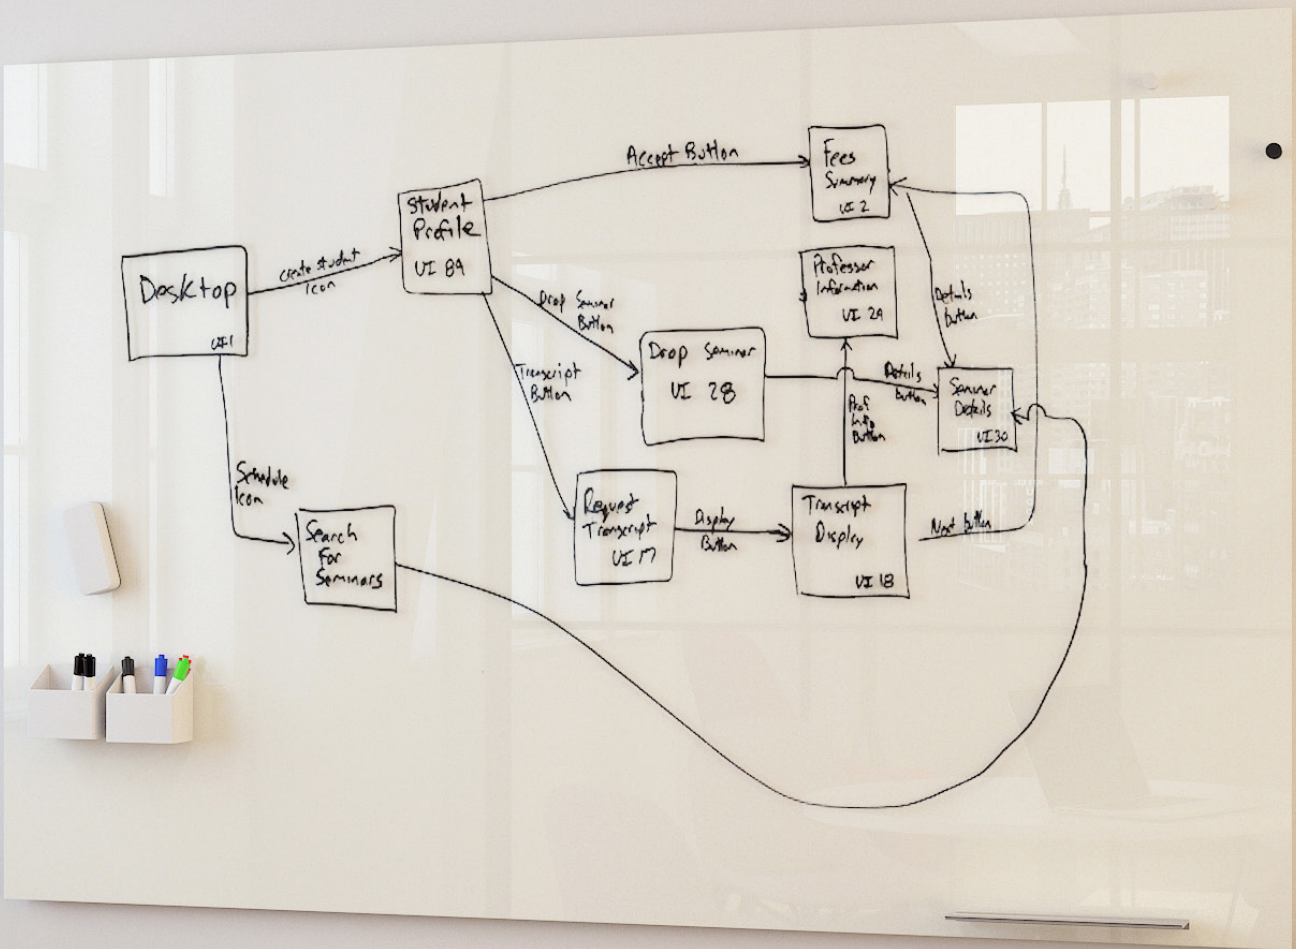

Easy to install with z-clip

Guaranteed to last the life of the wall

Metal or wooden frame available in any size

# AT A GLANCE

## Why Skyline Design?

### Experience!

Skyline has been making glass products for over 40 years

### Transparency

Products are 3rd party tested for material transparency

### In-House Fabrication

Products are 100% made in USA, ensuring the highest quality

### Tight Color Tolerances

Skyline's standard: Delta 0.5e (Industry standard: Delta 1.0)

### Precise & Consistent Paint Coverage

Skyline uses a roll-coat machine (industry standard is spraying – less coverage, more waste)

### Crates Made To Order

Shipped in custom wood crating to arrive in perfect condition

## Glassboard Colors

Skyline has strived to perfect custom color matching – we are happy to match any color from your palette for the same price as choosing from our standard color set.

## Glassboard Printing

Skyline Design has honed its AST™ and FV™ digital printing processes over four decades, ensuring impeccable quality control and precise color matching. Choose from our library of designs or supply your own artwork.

## Quick Ship Program

White magnetic Define glassboard collection in five standard sizes (2x3, 3x4, 4x5, 46, 4x8) are available for quick ship or local pickup in just 3 days.

## Government Purchasing Contracts

Skyline Design glassboards can be purchased through national contracts: OMNIA, TIPS, and VHA IDIQ. Visit [skydesign.com/contracts](http://skydesign.com/contracts) to learn more and see an updated list of state contracts.

## Request a Sample

Have your project information ready and visit [skydesign.com/request-a-sample](http://skydesign.com/request-a-sample) or call 773-278-4660 to speak with a glass expert.

## Request a Quote

Have your project information ready and visit [skydesign.com/request-a-quote](http://skydesign.com/request-a-quote) or call 773-278-4660 to speak with a glass expert.

## Lead Times

### 3 days / Quick Ship

Define™ frameless white glassboards in five standard sizes: 2'x3', 3'x4', 4'x5', 4'x6', 4'x8'.

### 4 weeks

Define™ frameless glassboards in any solid color or size up to 6' x 12'.

### 6-8 weeks

All glassboard products with printing, shapes, framing, and graphics in any size up to 6' x 12'.

# Celebrating over 40 years of Chicago-made glass products!

Made in Chicago with Vitro Starphire® low-iron tempered safety glass, our glassboards have a magnetic surface, require no assembly for easy installation, and have hidden hardware for a clean finished look.

We prioritize environmentally friendly processes and materials to help protect the well-being of our employees, the end-user, and our shared planet. This commitment is reflected in our core building material, **glass: which is chemically inert, has zero emissions, and is free from red-list materials.**

We work to create a seamless order process for customers, and our custom crating ensures that glass arrives perfectly intact.

With close attention to quality control and streamlined vertical integration, we are proud to provide a single source for a variety of glass executions, all out of our Chicago facility.

Interested in a tour? We love sharing what we do! Don't hesitate to reach out to me directly at [vipul@skydesign.com](mailto:vipul@skydesign.com).

# Innovation is our driving force, supported by our twin pillars of quality and craftsmanship.

## Water-based, No-VOC Paints

Skyline's proprietary Vitracolor roll-coating technique utilizes water-based paint. Specially developed for Skyline and produced within ten miles of our Chicago facility, our paint does not contain or emit VOCs.

## Recycling for Reduced Impact

Undecorated glass breakage or waste contributes as cullet for new float glass. By also incorporating recycled materials like aluminum oxide and cullet into our production processes, we embrace a circular mindset.

We've also invested in a state-of-the-art water centrifuge, efficiently cleaning and recycling water in our glass treatment processes.

## Quality Printing Processes

Skyline Design's proprietary digital printing processes utilize the world's most advanced equipment, always updated to provide the highest quality printing and color matching. Our FV™ process uses ceramic frit inks that are certified REACH-compliant, lead and cadmium free, and compatible with EU directive 2011/65/EU. Our AST™ process uses UV inks by Durst that are RoHS compliant and contain no heavy metals or other poisonous or corrosive substances.

## Eco-friendly Packaging Solutions

Custom-made wood crates are designed to fit each order precisely, and our packaging utilizes compostable packing peanuts, cardboard inserts, and recycled paper padding.

## Inclusivity and Community Partnerships

We are proud to have a workforce that reflects the diversity of our local community of Humboldt Park, Chicago. We believe in the importance of inclusivity and strive to create a welcoming and supportive environment for all members of our team.

Skyline Design works with local nonprofits to promote social equity, including **RefugeeOne** and **Heartland Alliance**, which provide job placement opportunities in our factory and office for refugees who have fled war, terror, and persecution; **Association House Chicago**, which offers part-time, flexible work options for individuals with developmental disabilities; and **Teamwork Englewood**, a re-entry program for formerly incarcerated individuals.

Skyline Design is proud to work with brands such as:

Vitracolor Dove Gray 14-05

## Collaborating with organizations working toward a greener future

We provide HPDs (Health Product Declarations) for our glassboard and decorative glass products. We use Vitro STARPHIRE® low-iron glass which is Cradle to Cradle certified with available EPDs (Environmental Product Declarations), and digitally print with REACH-certified inks.

# DEFINE ROUND™ GLASSBOARDS

Circular glassboards bring a touch of sacred geometry to your workspace. Customize with color, pattern, gradient, or imagery.

**Glass Type:** 1/4" Low-iron tempered safety glass

**Magnetic:** Glass surface is magnetic

**Mounting:** Z-clip with adhered backer

**Colors:** 16 standard colors or match to any color 

**Sizes (Diameter):** 2', 3', 4'

Compatible with any type of marker

**Size Diagram:**

# DEFINE CURVE™ GLASSBOARDS

Radius corners create a considered, modern appearance while providing a functional space for brainstorming, writing, and collaboration.

**Glass Type:** 1/4" Low-iron tempered safety glass

**Magnetic:** Glass surface is magnetic

**Mounting:** Z-clip with adhered backer

**Colors:** 16 standard colors or match to any color 

**Sizes:** 2'x3', 3'x4', 4'x5', 4'x6', 4'x8'

**Size Diagram:**

# CAREBOARD™ COMMUNICATION GLASSBOARDS

Align staff communication and enhance patient care in healthcare spaces. The naturally pathogen-resistant glass surface is easy to clean with standard healthcare cleaners. Simple, effective, and hygienic.

Choose from our design templates or customize with Skyline to meet the needs of your space.

**Glass Type:** 1/4" Low-iron tempered safety glass

**Glass Corner:** Square or rounded corners

**Magnetic:** Glass surface is magnetic

**Mounting:** Z-clip with adhered backer

**Sizes:** 18" x 24", 24" x 36", or any size up to 72" x 144"

Compatible with any type of marker

# MOSSA™ 4-WHEEL MOBILE BOARD

A stable, writable glassboard on wheels that can easily move around the office or classroom. A room divider, inspiration board, or a surface to jot down your next big idea on the go.

**Glass Type:** Low-iron tempered safety glass

**Magnetic:** Available in magnetic or non-magnetic

**Colors:** 16 standard colors or match to any color 

**Graphics:** Print any graphics, logos, and imagery

**Assembly:** Arrives fully assembled, just add casters

**Size:** 40" W x 73½" H x 24" D

**Frame Finishes:**

# MOSSA™ 3-WHEEL SPACE DIVIDER

A safe and versatile solution for artful space division. Provides flexible privacy while helping create an easily cleanable, beautiful, calming environment.

**Glass Type:** Low-iron tempered safety glass

**Graphics:** Print any graphics, logos, and imagery

**Frame:** Lightweight Alloy Aluminum

**Frame Finish:** White

**Casters:** Heavy-duty medical grade

**Glass Colors:** 16 standard colors or match to any color 

**Size:** 60" W x 60" H x 36" D

# ACCESSORIES

Skyline Design's glassboard accessories will help bring your creative ideas to life. They're designed with rare earth magnets that work perfectly with your 1/4" glassboard.

## Magnet Container

Holds up to 8 traditional markers  
Clings to magnetic glassboard

## Tray

12" metal rail  
Permanently adheres to glass surface

## Magnet Tray

12" metal rail clings to glassboard with magnet non-slip grip

## Eraser

Traditional dry eraser

## Magnet Eraser

Dry eraser with 3 additional refills  
Clings to magnetic glassboard

## Premium Kit

(1) Magnet Tray (1) Marker 4-pack  
(1) Magnet Eraser (6) Black Magnet

## Black Magnet

Rare earth magnet with black cap

## Standard Kit

(1) Tray with tape (1) Marker 4-pack  
(1) Eraser (6) Black Magnet

## Markers

Set of 4 dry-erase markers

## Board-Secure

2-pack of anti-bounce hardware  
Steadies the glassboard when writing
