

SDAC™ ACOUSTIC CONTROL GLASS

A simple solution for quieter, more comfortable spaces.

Cutting-edge glass solution designed to tackle sound issues in contract spaces.

Enjoy a quieter environment with SDAC™ glass, reducing perceived loudness by up to 50%. Not only does it reduce noise, but also enhances security and privacy in spaces like offices, hospitals, schools, and airports. Proven performance with a three-layer system targeting the most sensitive hearing range.
