

A single-source
smart glass window
and framing system
with unmatched clarity.

SDX3™ SmartView

SKYLINE

The image features a large, rectangular smart glass window set in a white frame. The window is partially clear, revealing a laboratory interior. In the foreground, a stainless steel sink with a curved faucet is visible. Through the window, a lab bench with various pieces of equipment, including a large overhead lamp and a rack of instruments, is seen. The background is a clean, light-colored wall. The overall scene is brightly lit, emphasizing the clarity of the smart glass.

SDX3 SmartView™ powered by **CLIC™**
Premium Smart Glass + Framing System

SDX3 SmartView combines Skyline's premium SDX3 smart glass and SmartView window framing system into one package.

Offering unmatched clarity from any angle and instant transitions from clear to private, SDX3 is specifically designed for viewing windows in healthcare spaces.

Manufactured in the Midwest, USA.
