

# SKYLINE

A hand is shown reaching out from the right side of the frame, touching a glass surface. The glass has a grid pattern of dark lines. The background is a bright blue color. The overall composition is split diagonally by a dark blue shape on the left side.

TRANSFORMING GLASS™

Over 40 years of  
Chicago-made glass.

## **Here to Help**

With the widest range of glass products in the market, our expert staff is here to help every step of the way.

## **Endless Possibilities**

Customizable solutions allow you to tailor everything from glass thickness and shapes to patterns, graphics, and textures.

## **One Stop Shop**

Skyline has been making all products in-house for over 40 years, which allows for tight quality control and competitive pricing.

## **Designer Collaborations**

Skyline's pattern library includes collections by Suzanne Tick, Patricia Urquiola, Michael Graves, Gensler, Jill Malek and Bonnie Edelman.

### Digital Printing

Skyline has been digitally printing on glass for 20+ years and houses 6 large format printers. Multiple digital printing methods allow for specialized color matching and varying levels of translucency and privacy.

### Eco-etch® Glass Etching

Recycled aluminum oxide permanently blasts a design into glass. Highly durable and can be used in both interior and exterior installations.

### SDX2™ Smart Glass

Switches from clear to private in 3 milliseconds. Lowest haze percentage in the market, with sizes up to 70" x 144". Customization available.

### Vitracolor® Wall-Cladding

Glass cladding made to measure for wall-to-wall applications. A uniform back-painted finish in any color can be combined with etching, texture, and digital printing.

### Exterior Bird-Friendly Glass

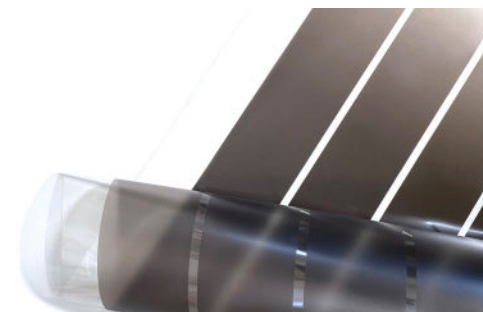

Surface One Eco-etch® process reduces bird collisions on exterior glass windows. Choose from Skyline's collection of proven bird-friendly patterns or consult with our team to create your own.

### Vector™ Glass Cladding System

A single-source interior wall and ceiling system that marries a high-performance extrusion sub-assembly by Wall Panel Systems with a robust collection of glass from Skyline.

### Skyline Glassboards

Skyline has a 40-year legacy of quality craftsmanship—and our glassboard collection is made in-house with that same attention to detail.

Custom color and printing options available.

## Glass & Mirror Types
